# Program

The Workshop day 2018 on **Multilevel and Multigrid Methods** takes place on May 30th at the Faculty of Electrical Engineering, Mathematics and Computer Science (EEMCS) of TU Delft.

The day program takes place at **Van der Poelzaal (LB.01.220)**.

09:45-10:00		Arrival Coffee/Tea
10:00-10:10		Welcome President SIAM SC Delft
<hr/>		
10:10-10:50	H. Hajibeygi	<b>Multilevel Keynote lecture:</b> <i>Multiscale Method for Deformable Porous Media</i>
10:50-11:15	M. HosseiniMehr	<i>Algebraic dynamic multilevel method for multiphase fluid flow in porous media with embedded discrete fracture model</i>
<hr/>		
Coffee Break		
<hr/>		
11:30-12:10	C.W. Oosterlee	<b>Multigrid Keynote lecture:</b> <i>Aspects of multigrid</i>
12:10-12:35	R. Tielen	<i>Efficient Multigrid based methods for Isogeometric Analysis</i>
<hr/>		
Lunch Break and Group Picture		
<hr/>		
14:00-14:25	P. Kumar	<i>A multigrid multilevel Monte Carlo method for transport in the Darcy-Stokes system</i>
14:25-14:50	P. Robbe	<i>An Overview of Multilevel Monte Carlo Techniques for Solving PDEs with Random Coefficients</i>
<hr/>		
Coffee Break		
<hr/>		
15:05-15:30	M. Gerritsma	<i>The discrete Steklov-Poincare operator using dual polynomials</i>
15:30-15:55	F. de Prenter	<i>Robust and Scalable Iterative Solvers for Immersed Finite Element Methods</i>
<hr/>		
Closing Remarks		
<hr/>		
16:00-17:00		Drinks/Snacks

In the evening we will organize a BBQ (starting at 17:00), which will take place at **Freezone B**.
